Border Force is a very interesting simulation that's simulates the borders in UK after the brexit. The game has a very good gameplay and a very good tutorial. The graphics are, however, not bad. I think, the developers will it so, that the graphics aren't the newest.

But: Please make a new update. Since February, nothing happened. The steam discussions are death(?) and also Discord. It would be nice If new days added and new objects to control and more cars. Probably a Computer where you can check files to control cars etc. This Game have potential without end, PLEASE USE THE POTENTIAL OUT!!!!!!! I'VE PRESENT MY IDEAS AND IT LOTS MORE TO EXPLORE! Thanks, Spire Interactive, it's so much to put in Updates, please use it, Thanks :)
